

9-1 Final Clip

- Here are two recent textbooks on mathematical philosophy (which include further details on the mathematical methods that are used in mathematical philosophy):

Papineau, D., *Philosophical Devices. Proofs, Probabilities, Possibilities, and Sets*, Oxford: Oxford University Press, 2012.

Steinhart, E., *More Precisely. The Math You Need to Do Philosophy*, Peterborough, Ontario: Broadview, 2009.

- Online lecture notes on various areas of mathematical philosophy can be downloaded at

<http://www.mcmp.philosophie.uni-muenchen.de/students/math/index.html>

- What Hannes said in this lecture about the explication of concepts is worked out in detail in the introductory chapter of Rudolf Carnap's classic

Carnap, R., *Logical Foundations of Probability*, Chicago, Illinois: University of Chicago Press, 1950.

(If you google 'Carnap, explication', you will find quite a view online texts on this topic, too.)

- If you want to know more about our Munich Center for Mathematical Philosophy (MCMP) at LMU Munich, please take a look at

<http://www.mcmp.philosophie.uni-muenchen.de/index.html>

- If you would like to watch and listen to academic talks on topics in mathematical philosophy (which have not been designed for students, as we should emphasize, but which are directed towards a professional philosophical audience!), please check out

<https://itunes.apple.com/de/itunes-u/id439913748>

where you will find a repository of 250 talks in mathematical philosophy that were given at the MCMP in the years 2011-2012. And see

<http://www.mcmp.philosophie.uni-muenchen.de/media/index.html>

for even more talks and for further contributions to mathematical philosophy through other media.

- Here is an incomplete list of names of people who were involved in preparing this course:

Teaching-Team:

Hannes Leitgeb, Lecturer

Stephan Hartmann, Lecturer

Lena Hofer, Teaching Assistant (forums, administration, subtitles, etc.), course management, quality control (content), animations, supervision of video-editing (with regards to content)

LMU-Coursera-Team:

Armin Rubner, Supervisor of the whole “LMU on Coursera”-Project

Erik Keller, quality control (technical/graphical), technical support, animation recording/post production

Jimena C. Saucedo-Friebe, administration, photos, subtitles

Coursera contact person:

Norian Caporale-Berkowitz, Coursera course operations

Film-Team (afk tv – Aus- und Fortbildungsfernsehen, www.afktv.de):

Florian Böhm, Producer/ Unit Production Manager

Christian Fay, Director of Photography

Juliane Herrmann, Editor and Director

Barbara Hinkelbein, Editor

Thomas Sajdak, Production Manager

Thomas Schröder, Editor and Director

- Thanks so much! And, many thanks to LMU Munich for supporting this project!
- Last but not least: Thanks so much to all of you for your interest in the course and for your wonderful discussions in the forums!
